

Senso Unico

The Senso Unico is a unique GP contact lens, with no transitions, offering crisp and clear optics from center to periphery. The lens is tailor made, individually designed by EyeLite fitting software, based on topography.

Features

- Individual, tailor made, optimized fit
- Optimal wearing comfort
- Short adaptation period
- Outstanding vision
- AB technology
- Corneal topographer and EyeLite software necessary
- Replacement once a year

Parameters

Base Curve	7.10 to 9.00 mm in 5/100 mm.
Sphere Power	+ 20.00 D to - 20.00 D
E-value	0.1 to 0.9 (calculated individually, based on topography)

Senso Unico F (Front surface toric)

Cylinder	max. cylinder - 2.50 D
Axis	0° to 180° in 5° steps
Prism	1.25

Senso Unico B (Back surface toric)

Base Curve	7.10 t/m 9.00 mm at 5/100 mm.
------------	-------------------------------

Senso Unico BF (Bi toric)

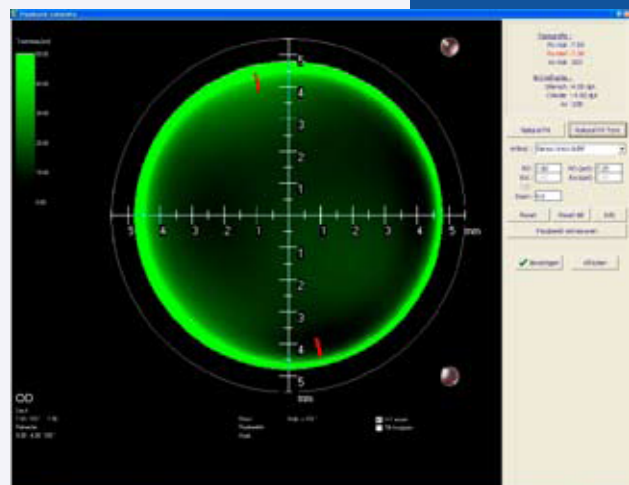

Cylinder	max. cylinder - 2.50 D
Axis	0° to 180° in 5° steps

Technical information

Material	Boston XO Extra
Centre thickness	0.13 mm (- 3.00 D)
